CONSENT TO CARE

I hereby give my permission and authority for care. I authorize the doctors to order appropriate tests for diagnosis and analysis. The clinical procedures performed are usually beneficial and seldom cause any problem. In rare cases underlying physical defects, deformities or pathologies may render the patient susceptible for injury. The doctor, of course, will not provide specific healthcare if he/she is aware that such care maybe contraindicated. It is the responsibility of the patient to make it known or to learn though health care procedures from whatever he/she is suffering from: latent pathological defects, illness or deformities which would otherwise not come to the attention of the physician. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely upon the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known to him or her, is in my best interest.

I agree to settle any claim or dispute I may have against or with any of these persons or entities whether related to the prescribed care or otherwise will be resolved by binding arbitration under the current malpractice terms which can be obtained by written request.

POLICIES

1. All first visit charges are payable when services are rendered, since it is impossible to determine what Insurance covers without a diagnosis of severity.
2. The fee paid for X-rays is for the analysis of those X-rays only. The x-rays are the property of this office. Copies can be made at a minimal fee.
3. **Method of payment for today's charges: _____Cash _____Check _____Visa / MasterCard**
